Day to Day:

Insight Global is looking for a Safety Manager in the Wentzville, Missouri area. The Safety Manager is going to be responsible for walking the floor, checking on jobs, making sure proper safety is occurring on the floor, as well as any paperwork and administrative tasks. They will also be assisting the supervisor in creating any plans for the day and any situations that arise. The Safety Manager needs to be willing to learn, can lead, and be able to make hard decisions and speak up when necessary. The Safety Manager will also have a Safety Specialist that is their direct report – mentoring the specialist is a huge part of this role! Reach out to Delaney Bry: Delaney.bry@insightglobal.com if you are interested, with your most updated resume. Learn more about other job openings on our St. Louis ASSP jobs page [here](#).
